

Minutes of the 54th Meeting of Central Sub-Committee on Crop Standards, Notification and Release of Varieties for Agricultural Crops held under the Chairmanship of Prof. S.K. Dutta, Deputy Director General (Crop Sciences), ICAR, on 24th – 25th October, 2009 at Karnataka State Seeds Corporation Ltd., Bellary Road, Hebbal Bangalore.

The Chairman, Central Sub-Committee on Crop Standards, Notification and Release of Varieties for Agricultural Crops welcomed members of the Sub-committee, Managing Director, Karnataka State Seeds Corporation and special invitees. The list of the participants who attended the meeting is annexed as Annexure-I.

Member-Secretary of the Sub-committee provided the account of the earlier Committee and its follow-up action and the particulars of the present Sub-committee issues to be discussed. After introduction regular agenda items were taken for discussion as under:-

Item No.1: Confirmation of the minutes of 53rd meeting of Central Sub Committee on Crop Standards, Notification and Release of Varieties for Agricultural Crops held on 26th June, 2009.

The minutes of 53rd meeting of Central Sub Committee on Crop Standards, Notification and Release of Varieties for Agricultural Crops has been circulated vide No. 17-4/2009-SD.IV dated 15.07.2009. Since no comments have been received, therefore, the minutes of the meeting were confirmed.

Item No.2: Review of follow up action of the 53rd meeting of Central Sub Committee on Crop Standards, Notification and Release of Varieties for Agricultural Crops.

Proposals received for release and notification for various crop/varieties for the 53rd meeting have been considered and those were found as per requirement, recommended for notification. The Gazette Notification in this regard has been issued vide S.O. No. 2187(E) dated 27th August, 2009.

The committee also approved the notification of the following variety recommended by the 42nd, 44th, 51st and 53rd meeting, which have been kept in abeyance for want of certain information, which has since been received:-

Table-1A

S.No.	Kind	Variety	Meeting in which it considered
1	Yellow sarson	Pant Pili Sarson-1	42 nd
2	Cotton	CICR-1(CISA 310)	44 th
3	Green gram	Paury Mung	51 st
4	Cowpea	KM-5	53 rd
5	Field Bean	HA-4	53 rd

Item No.3: Release and notification Proposals received for consideration in the 54th Meeting of Central Sub Committee on Crop Standards, Notification and Release of Varieties for Agricultural Crops.

The following proposals have been received for consideration in the 54th meeting of the Sub-Committee for release/notification (Central varieties) and the particulars of the same are given as under:-

Table-1

Sl. No.	Crop	Name of the variety	Remarks
1	Rice	Jagjeevan (IET 19487) (RP 4631-46-6-5-1-1-1)	1. Recommended for release and cultivation in the Coastal and inland saline area of Orissa, Gujarat and Kerala under irrigated/rainfed ecology in saline area. Medium duration – 130-135 Days. Yield under saline condition 4.2 Ton/Ha. Resistant to neck blast, RT, BLB and field tolerance to sheath rot and Sheath blight. 2. Recommended for notification to entire country.
2	Rice (Hybrid)	DRRH-3 (DRRH-44) (IET 19543)	1. Recommended for release and cultivation in the state of Madhya Pradesh, Orissa, Uttar Pradesh, Gujarat and Andhra Pradesh under irrigated transplanted conditions. Medium duration – 131 Days. Yield 6-6.5 Ton/Ha. Moderately resistant to leaf blast, neck blast under controlled conditions. Tolerance to WBPH, lodging resistant. 2. Recommended for notification to entire country.
3	Rice	DRR-1 (RPRH 25-104-1-2) (IET 20010)	1. Recommended for release and cultivation in the state of Gujarat and Andhra Pradesh under irrigated transplanted conditions. Medium duration – 136 Days. Yield under normal condition 5.4 to 6.8 T/ha. Moderately resistant to leaf blast, bacterial leaf blight, sheath rot and WBPH. 2. Recommended for notification to entire country.
4	Rice	Narendra Usar Dhan-2008 (NDRK 5088) (IET 18699)	1. Recommended for release and cultivation in coastal saline areas of Orissa, Andhra Pradesh and West Bengal. Medium duration – 130 Days. Average yield 45-50 Q/ha. Moderately resistant to sheath rot, sheath blight, leaf blast and bacterial blight. Resistant to lodging and shattering. 2. Recommended for notification to entire country.
5	Pearl Millet (Hybrid)	HHB – 223 (MH 1468)	1. Recommended for release and cultivation in State of Uttar Pradesh, Haryana, Eastern Rajasthan and Gujarat. Medium maturity – 77 days. Yield 26 Q/ha. Tolerant to downy mildew. 2. Recommended for notification to entire country.
6	Pearl Millet (Forage)	BAIF Bajra-1	1. Recommended for release and cultivation in State of Rajasthan, Punjab, Haryana, Uttaranchal, Uttar Pradesh, Gujarat, Madhya Pradesh and Maharashtra during Kharif and summer season. Maturity - 90-95 Days. Green Forage yield 38-40 T/ha. and Dry matter yield 8-9 T/ha. Moderately resistant to downy mildew. 2. Recommended for notification to entire country.

7	Pearl Millet (Hybrid)	HHB – 216 (MH 1421)	1. Recommended for release and cultivation in State of Rajasthan, parts of Haryana, Gujarat. Yield 23 Q/Ha. 2. Recommended for notification to entire country.
8	Pearl Millet (Hybrid)	NANDI – 64 (MSH 199) (NMH 69)	1. Recommended for release and cultivation in State of Gujarat, Rajasthan, Maharashtra and Uttar Pradesh in summer season. Late maturity group. Drought tolerant, Resistant to lodging. 2. Recommended for notification to entire country.
9	Little Millet	SAURA (OLM 208)	1. Recommended for release and cultivation in the State of Orissa, Chhattisgarh and Gujarat under rainfed upland conditions. Late Maturity -137 Days.Yield 14 Q/ha. Moderately resistant to Shoot fly, rust. 2. Recommended for notification to entire country.
10	Proso Millet	TNAU - 164	1. Recommended for release and cultivation in the State of Andhra Pradesh, Bihar, Karnataka, Maharashtra, Tamil Nadu and Uttaranchal under rainfed conditions in Kharif and Rabi seasons. Maturity – 71Days. Yield 18 Q/ha. Tolerant to Shoot fly. Resistant to rust. 2. Recommended for notification to entire country.
11	Green Gram	Pusa 0672	1. Recommended for release and cultivation in the State of Jammu & Kashmir, Manipur and Tripura in Kharif season. MediumMaturity -79 Days. Yield 10 Q/ha. Resistant to Mungbean yellow mosaic virus. 2. Recommended for notification to entire country.
12	Horse Gram	VL Gahat – 19 (VLG -19)	1. Recommended for release and cultivation in timely sown rainfed conditions of North Zone. Maturity – 93 Days. Average yield 5 Q/ha. 2. Recommended for notification to entire country.
13	Groundnut	Vijetha(R-2001-2)	1. Recommended for release and cultivation in the State of Orissa, Jharkhand, West Bengal, North Eastern States, Karnataka, Maharashtra, Tamil Nadu and Andhra Pradesh under rainfed/irrigated conditions. Medium maturity – 120 Days. Yield Pod 16 Q/ha., Kernel 11 Q/ha. Resistant to PBNB. 2. Recommended for notification to entire country.
14	Groundnut	JL-501	1. Recommended for release and cultivation in the State of Gujarat and Southern Rajasthan under Rainfed timely sown condition and also suitable for summer. Early Maturity - 102 Days. Yield Pod 16 Q/ha., Kernel 11 Q/ha. 2. Recommended for notification to entire country.

15	Groundnut	HNG-69	1. Recommended for release and cultivation in the State of Rajasthan and Punjab under Irrigated timely and late sown condition of Kharif. Late Maturity – 131 Days. Yield Pod 28 Q/ha 2. Recommended for notification to entire country.
16	Indian Mustard	Pusa Mustard 25(NPJ-112)	1. Recommended for release and cultivation in the State of Jammu and Kashmir(plains), Punjab, Haryana, Rajasthan, Delhi and Western Uttar Pradesh. It is also suitable for multiple cropping system. Early maturity – 107 Days. Oil Yield 578 Kg/ha. Oil content 39.6%. Average Seed Yield 1469 Kg./ha. 2. Recommended for notification to entire country.
17	Niger	Birsa Niger-3 (BNS-11)	1. Recommended for release and cultivation in the State of Jharkhand, Chattisgarh, Madhya Pradesh, Orissa, Maharashtra, Karnataka, Andhra Pradesh, West Bengal and Kerela under Rainfed and upland condition. Early Maturity – 98 Days. Yield 581Kg./ha. 2. Recommended for notification to entire country.
18	Jute	Sourav (CO-58)	1. Recommended for release and cultivation in the Tossa Jute growing regions in India. Maturity – 285 Days. Fiber yield 34 q/ha. 2. Recommended for notification to entire country.

Following varieties have been provisionally recommended for notification, subject to submission of the clarification sought by the Committee:-

Table-2

Sl. No.	Crop	Name of the variety	Remarks
1	Wheat	Pusa Basant (HD 2985)	1. Recommended for release and cultivation under late sown condition of East of UP, Bihar, Jharkhand, West Bengal (excluding hills), Orissa, Assam and plains of Northeastern States. Early maturity – 123 Days. Average yield 37 Q/Ha. Resistant to brown rust and black rust. Notification has been withheld for want of clarification from the Sponsoring Authority about the authorship/name of the person(s) who helped in the development of variety, for which the concerned made representation to the Sub-committee as well as DDG(CS). The Committee also further decided that the clarification about the authorship has to be routed through Project Director, Dte. of Wheat Research, ICAR, Karnal.

2	Wheat	Pusa Bahar (HD 2987)	1. Recommended for release and cultivation in the State of Maharashtra, Karnataka and Andhra Pradesh under timely sown restricted irrigated and rainfed conditions. Early Maturity – 111 Days. Yield 17 Q/Ha. Resistant to brown rust and black rust.
			Notification has been withheld for want of clarification from the Sponsoring Authority about the authorship/name of the person(s) who helped in the development of variety, for which the concerned made representation to the Subcommittee as well as DDG(CS). The Committee also further decided that the clarification about the authorship has to be routed through Project Director, Dte. of Wheat Research, ICAR, Karnal.
3	Pearl Millet (Hybrid)	RHB-173 (MH 1446)	1. Recommended for release and cultivation in the State of Rajasthan, Haryana, Gujarat, Uttar Pradesh, Madhya Pradesh and Delhi under low fertility rainfed conditions. Medium duration -72-80 Days. Resistant to Downey Mildew. 2. Recommended for notification to entire country, subject to submission of the NBPGR Certificate for submitting the seed sample.

Following proposals have been deferred/rejected for want of required information, which has been stated against each:-

Table-3

Sl. No.	Crop	Name of the variety	Remarks
1	Rice (Hybrid)	NK 5251 (IET 19738)	The sponsoring authority has not provided particulars about the source of material. Parentage details, which has been provided under Column 5(a) of the proposal has not having any reference about its parentage genesis. It is also not having any reference from where basic material has been drawn for developing the variety and information about its organization details and the acknowledgement given to the organization, etc. The Committee desired to know the registration number to be registered with the Ministry of Science and Technology to conduct research in India. Besides, they have not given any particulars about the package and practices for production of the hybrid seeds.

2	Rice	Pratap Dhan (IET 18665) RRU 9630)	The proposal has been deferred as the same has not been in the prescribed proforma. Sponsoring Authority also advised to generate one more year trial data.
3	Rice	Sahbhagi Dhan (IET No.19576) IR 74371-70-1-1-CRR-1)	The proposal has been deferred for want of clarification on the authorship and parentage details. Sponsoring Authority has been advised to re-submit the revised proposal along with the required information for consideration.
4	Rice (Hybrid)	US 312 (IET 19513)	The sponsoring authority has not provided particulars about the source of material. Parentage details, which has been provided under Column 5(a) of the proposal has not having any reference about its parentage genesis. It is also not having any reference from where basic material has been drawn for developing the variety and information about its organization details and the acknowledgement given to the organization, etc. The Committee desired to know the registration number to be registered with the Ministry of Science and Technology to conduct research in India. Besides, they have not given any particulars about the package and practices for production of the hybrid seeds.
5	Maize (Hybrid)	NK-30 (NECH – 132)	The sponsoring authority has not provided particulars about the source of material. Parentage details, which has been provided under Column 5(a) of the proposal has not having any reference about its parentage genesis. It is also not having any reference from where basic material has been drawn for developing the variety and information about its organization details and the acknowledgement given to the organization, etc. The Committee desired to know the registration number to be registered with the Ministry of Science and Technology to conduct research in India. Besides, they have not given any particulars about the package and practices for production of the hybrid seeds.
6	Maize (Hybrid)	NK 6240 (NECH-131)	The sponsoring authority has not provided particulars about the source of material. Parentage details, which has been provided under Column 5(a) of the proposal has not having any reference about its parentage genesis. It is also not having any reference from where basic material has been drawn for developing the variety and information about its organization details and the acknowledgement given to the organization, etc. The Committee desired to know the registration number to be registered with the Ministry of Science and Technology to conduct research in India.

			Besides, they have not given any particulars about the package and practices for production of the hybrid seeds.
7	Maize	Bajaura Makka-1 (L-173 Composite)	The cultivar under reference has been rejected for release/notification as the cultivar has not shows any superiority in yield. Moreover, the data provided is also insufficient.
8	Maize (Hybrid)	900M Gold (M ON 26)	The sponsoring authority has not provided particulars about the source of material. Parentage details, which has been provided under Column 5(a) of the proposal has not having any reference about its parentage genesis. It is also not having any reference from where basic material has been drawn for developing the variety and information about its organization details and the acknowledgement given to the organization, etc. The Committee desired to know the registration number to be registered with the Ministry of Science and Technology to conduct research in India. Besides, they have not given any particulars about the package and practices for production of the hybrid seeds.
9	Pearl Millet (Hybrid)	Kalpataru – 51 (MH 1456)	The sponsoring authority has not provided particulars about the source of material. Parentage details, which has been provided under Column 5(a) of the proposal has not having any reference about its parentage genesis. It is also not having any reference from where basic material has been drawn for developing the variety and information about its organization details and the acknowledgement given to the organization, etc. The Committee desired to know the registration number to be registered with the Ministry of Science and Technology to conduct research in India. Besides, they have not given any particulars about the package and practices for production of the hybrid seeds.
10	Pearl Millet (Hybrid)	BIOGENE – 66 (MH 1352)	The sponsoring authority has not provided particulars about the source of material. Parentage details, which has been provided under Column 5(a) of the proposal has not having any reference about its parentage genesis. It is also not having any reference from where basic material has been drawn for developing the variety and information about its organization details and the acknowledgement given to the organization, etc. The Committee desired to know the registration number to be registered with the Ministry of Science and Technology to conduct research in India. Besides, they have not given any particulars about the package and practices for production of the hybrid seeds.

11	Pearl Millet (Hybrid)	SAGAR URMI	The sponsoring authority has not provided particulars about the source of material. Parentage details, which has been provided under Column 5(a) of the proposal has not having any reference about its parentage genesis. It is also
			not having any reference from where basic material has been drawn for developing the variety and information about its organization details and the acknowledgement given to the organization, etc. The Committee desired to know the registration number to be registered with the Ministry of Science and Technology to conduct research in India. Besides, they have not given any particulars about the package and practices for production of the hybrid seeds.
12	Pearl Millet	CSBV 16 (MP 479)	The cultivar under reference has been rejected for notification as the cultivar has not shown any superiority in yield. Moreover, the composite is not suitable to southern states and no significant data has been generated for agronomic trials on all locations.
13	Sorghum	CSV 24SS (SPSSV – 6)	The cultivar under reference has been deferred as the proposal in question has not been submitted in the prescribed proforma. Moreover, the cultivar under reference has been tested during the year, 2006 and identified during the year, 2009. The reason of taking three years delay may be explained.
14	Sorghum	CSV 25 (SPV 1746)	The cultivar under reference has been rejected for notification as it is not shown any significant in yield. Moreover, the cultivar under reference has been tested during the year, 2006 and identified during the year, 2009. The reason of taking three years delay may be explained.
15	Green Gram	PKV AKM -4 (AKM 9904)	The cultivar under reference has been deferred for want of information about the date and venue of workshop in which the cultivar has been recommended for identification and States covered under Central and South Zones of India. The Committee also further advised that Director of Research, Dr. PDVK Akola should ensure while re-submitting the proposal that the papers be arranged in a serialim and proper care should be taken to submit proposals to the Committee in future.
16	Linseed	Ruchi(LCK-5021)	The cultivar under reference has been deferred as the proposal in question has not been submitted in the prescribed proforma. Therefore, the Committee advised the sponsoring authority to re-submit the proposal alongwith the relevant data.

17	Sesame	Tarun (CST 2001-3)	The cultivar under reference has been rejected for notification as the cultivar in question has not shown any superiority in yield over the check.
18	Cotton (Hybrid)	Nandi 666	The cultivar under reference has been deferred as the sponsoring authority has not submitted state-wise yield data and name of states covered under the Central Zone.

Item No. 4: Proposals received for consideration of notification (State varieties) in 54th Meeting of Central Sub Committee on Crop Standards, Notification and Release of Varieties for Agricultural crops.

The following proposals have been considered for notification (State Varieties):

Table 4

S. No.	Crop	Variety	Sponsoring State
1.	Barley	PRB-502	Uttarakhand/2008
2.	Barley	Jawahar Barley 1(JB110)	Madhya Pradesh/ 2008
3.	Rice	Srisatya (RGL 1880)	Andhra Pradesh/ 2009
4.	Rice	Amara (MTU 1064)	Andhra Pradesh/ 2009
5.	Rice	Nellore Mahsuri (NLR34449)	Andhra Pradesh/ 2009
6.	Rice	Ramappa (WGL-23985) (IET-17856)	Andhra Pradesh/ 2009
7.	Rice	Phule Samruddhi (VDN-99-29)	Maharashtra/2007
8.	Rice	HKR 127 (HKR 95 – 222)	Haryana/2009
9.	Rice	PTB-58 (IET-17608) (Cul. 20 D-1)	Kerala, 2009
10.	Wheat	WH 1025	Haryana/2009
11.	Wheat	UP2628	Uttarakhand/2008
12.	Wheat	MP 3211 (JW 3211)	Madhya Pradesh/ 2008
13.	Wheat	MP (JW)1202 (MP 1202)	Madhya Pradesh/ 2009
14.	Maize(Hybrid)	BH 40625 (DHM-117)	Andhra Pradesh/2009
15.	Maize(Hybrid)	BH 1620 (DHM-113)	Andhra Pradesh/2009
16.	Maize(Hybrid)	BH 1576(DHM-111)	Andhra Pradesh/2009
17.	Sorghum	Kinnerea (MJ-278)	Andhra Pradesh/2009
18.	Finger Millet	Sri Chaitanya (VR 847)	Andhra Pradesh/2009
19.	Proso Millet	PRC1	Uttarakhand/2008
20.	Blackgram	Lam Minumu 752	Andhra Pradesh/2009
21.	Chickpea	Pant Kabuli Chana-1	Uttarakhand/2007
22.	Cowpea	Pant Lobia-1	Uttarakhand/2008
23.	Forage Cowpea	UPC 621	Uttarakhand/2008
24.	Greengram	Madhira Pesara 347	Andhra Pradesh/2009
25.	Greengram	MH-125	Haryana/2009
26.	Lentil	Pant Lentil 6 (PL 02)	Uttarakhand/2009
27.	Lentil	Pant Lentil 7(PL 024)	Uttarakhand/2009
28.	Lentil	VL Masoor 129	Uttarakhand/2008
29.	Pigeonpea	Pant Arhar-291 (PA-291)	Uttarakhand/2008
30.	Groundnut	VL Moongphali 1	Uttarakhand/2008

31	Sesame	TKG-308	Madhya Pradesh/ 2008
32	Sesame	Jawahar Til-14 (PKDS-8)	Madhya Pradesh/ 2008
33	Sesame	Jawahar Til-12 (PKDS-12)	Madhya Pradesh/ 2008
34	Soyabean	VL Soya - 65	Uttarakhand/2008
35	Toria	Uttara (PT-2002-25)	Uttarakhand/2008
36	Bajra	Napier Grass Culture 4	Kerala, 2009
37	Bajra	Napier Grass Culture 21	Kerala, 2009
38	Guinea Grass	Selection 1	Kerela, 2009
39	Mung	Pant Mung-5	Uttarakhand/2009

The Following varieties have been recommended for Notification, subject to submission of the seed sample to NBPGR, New Delhi for accession:-

Table 5

S. No.	Crop	Variety	Sponsoring State
1	Rice	JGL 3844 (Jagtial Samba)	Andhra Pradesh/ 2009
2	Rice	JGL 3828 (Manair Sona)	Andhra Pradesh/ 2009

The Following varieties have been deferred/rejected for the reasons stated against each:-

Table 6

S. No.	Crop	Variety	Remarks
1	Rice	Pant Kalanamak 3131 (IET-20028)	The Committee rejected the proposal as the sponsoring authority has not complied the 50 th Sub-committee meeting requirements.
2	Rice(Basmati)	Vallabh Basmati-21 (IET 19493) (MAUB-21)	Deferred for want of Certificate from the Project Director, Dte. of Rice Research, Hyderabad about the NBT Trials and other requirements to meet the qualification of the basmati rice.
3	Wheat	KD 9851(SONA)	Deferred as the cultivar in question has not been tested in All India Coordinated Trial for diseases.
4	Wheat	K0402(MAHI)	Deferred for want of NBPGR Certificate.
5	Cotton	Siva Nandi (NDLH-1755)	Deferred as the proposal in question has not been forwarded through State Seed Sub-committee.
6	Rice	Culture-80	Deferred as the cultivar in question has not been tested in All India Coordinated Trial for diseases.

Item No. 5: Registration of varieties which have been recommended for release/notification are to be registered simultaneously with the PVP Authority.

The Committee noted that the breeder who develops the variety has not take any initiative for preparing the documents and not following the relevant procedures to register the variety with the PVP Authority so as to protect the public variety. After the in-depth discussion with regards to time to be taken for preparing the documents to register with the PVP and to submit the proposal for release and notification, it was decided that whenever the variety entered into AVT 1, the breeder simultaneously has to prepare the document for registering the public variety with the PVP. Sub-Committee advised that the breeder concerned to expedite the procedure along with the AVT trials in advance so that registration process with PVP will be started. It was also resolved that the breeder concerned should take initiative to register hybrid as well parent lines with PVP. Whenever the proposal to be submitted by the sponsoring authority to the Sub-Committee for release/notification, they should indicate in the proposal about the initiative taken to register the variety with the PVP in future.

Item No.6: Protocol/procedure to be developed for testing the Bt. Cotton BGII, fused gene and other events:

The Committee noted that Government of Andhra Pradesh, Department of Agriculture informed vide their letter No.SRC (4) 124/07 dated 23.09.09 that seed stocks of Bt. cotton BGII are being sold in the State of Andhra Pradesh large quantities to the extent of about 40 lakhs packets every year. However, there is no procedure available to regulate the quality of such seeds by way of sampling and analyzing the same in the notified seed testing laboratories. In the meeting, Department of Seed Certification, Govt. of Tamil Nadu has provided the basic material for testing procedure for Cry 1 Ac/BG1, ELISA method for Cry 1 Ac, Cry 2 Ab.BGII and ELISA method for BGII Cry 1 Ac and Cry 1 Ab and fused gene (Cry 1 Ac & Cry 1 Ab)-ELISA method for the perusal of the Committee. The Chairman of the Sub-Committee perused the basic material and discussed with the Director, Central Cotton Research Institute, Nagpur over phone about this issue. The Chairman of the sub-Committee directed the Director, Central Cotton Research Institute, Nagpur to provide the required procedure to test the Bt. cotton BGI, BGII and fused gene and other events, if any, to the Sub-Committee so as to circulate to all the state seed testing laboratories and to follow the procedure for testing the transgenic gene at the earliest. It was also decided that till that time, the procedure given by Department of Seed certification, Govt. of Tamil Nadu may be kept in abeyance and not to circulate as it requires some more improvement.

Item no.7: List of crop/varieties to be offered for OECD Seed Scheme.

The Committee noted that India became the OECD member for OECD seed scheme during October, 2008. As to comply the requirement with regards to updating the annual list of crop/varieties and parental constituents of OECD, a Workshop has been convened during the month of August, 2009 in which list of varieties to be provided to the OECD has been prepared. Joint Secretary (Seeds), who is the National Designated Authority for OECD desired that the list identified in the Workshop has to be brought to the notice of the Sub-committee before sending to the OECD. Accordingly, the list of varieties identified in the Workshop has been circulated to the all members of the Committee for perusal.

The Committee studied this issue in depth and decided that the Project Coordinator of the concerned crops are to be discussed and to get their view on what basis these crops/varieties are to be approved. The issue related to parentage, registration with PVP, the impact on account of providing the list of varieties to other foreign countries in the absence of registration with the PVP, etc. are to be studied in detail. Taking into consideration of the above, the Committee desired that a formal letter listing out varieties to be sent to the OECD for Varietal Certification Scheme may be forwarded to the Director General, ICAR from the level of the Joint Secretary (Seeds) for comments and approval as the issue under reference is out of the purview of the Sub-committee.

Item no.8: Notification of Wheat variety Pusa Borlaug (HD 2967).

During the discussion, with the approval of the Chairman, Head, Seeds Science and Technology, IARI, Pusa, New Delhi, who is the member of the Sub-committee stated that IARI developed the Wheat variety named as Pusa Borlaug (HD 2967) has not been listed for consideration in this meeting as the variety to be named after Borlaug to honor the Nobel price winner and the service rendered by him to Indian farmers. It was also stated by the Head, SS&T, IARI that a World Conference is going to be held in the month of November, 2009 in which Hon'ble Minister of Agriculture, Government of India, many prominent world famous scientists and administrators are expected to attend the meeting. Therefore, she proposed that the variety to be considered for notification to salute Dr. Borlaug for his service rendered to Indian farmers and this has to be announced in the World Conference. Since the proposal has not been received for consideration, the Chairman directed the Head, Seeds Science and Technology, IARI, Pusa, New Delhi to get the proposal on fax.

Accordingly, the proposal has been received by fax and studied the proposal in depth in consultation with the experts. The experts stated that the variety under reference is not performing upto the mark compares to the existing varieties DWR-17. The yield advantage is not at all superior over the check variety and also it is susceptible to diseases. The Committee comes to the conclusion that the IARI Wheat variety Pusa HD 2967 is not at all eligible to name after Dr. Borlaug. Therefore, it is suggested that the best variety i.e. DWR-17 has to be re-named as Pusa Borlaug(DWR-17). The Chairman, Subcommittee directed the Head, SS&T to initiate necessary action to re-name DWR-17 as Pusa Borlaug(DWR-17) to mark the respect to Dr. Borlaug in consultation with the Director General, ICAR and subsequently Gazette Notification for amendment to re-name the variety will be issued.

Meeting ended with vote of thanks to the Chair.
