

**Minutes of the 64<sup>th</sup> Meeting of Central Sub-Committee on Crop Standards, Notification and Release of Varieties for Agriculture Crops held under the chairmanship of Prof. S. K. Datta, Deputy Director General (Crop Science), ICAR Krishi Bhawan on 3<sup>rd</sup> November, 2012 at Committee Hall of NBPGR, Pusa, New Delhi-110012.**

The list of participants is at Annexure-I.

The Chairman, Central Sub-Committee on Crop Standards, Notification and Release of Varieties for Agricultural Crops welcomed the members of the Sub-Committee and special invitees for the meeting. He commended that the Secretariat of the Sub-Committee had timely issued the Minutes of 63<sup>rd</sup> Meeting of the Sub-Committee and also uploaded the same on the website of DAC. The Deputy Commissioner(QC) and Member Secretary of the Sub-Committee mentioned that the specific action had been taken on deferred proposals of previous meetings in consultation with the concerned Breeder / PC / PD and after removing various deficiencies the same have been included in the Agenda Note for this meeting. Thereafter, the Member-Secretary of the Sub-Committee presented the Agenda items for consideration by the Sub-Committee.

**Item No.1: Confirmation of the minutes of 63<sup>rd</sup> meeting of Central Sub-Committee on Crop Standards, Notification and Release of Varieties for Agricultural Crops held on 28<sup>th</sup> – 29<sup>th</sup> June, 2012.**

The minutes of 63<sup>rd</sup> meeting of Central Sub-Committee on Crop Standards, Notification and Release of Varieties for Agricultural Crops were confirmed. The Sub-Committee noted that the Gazette Notification S.O. No. 2125(E) dated 10<sup>th</sup> September, 2012 was issued for the cultivars recommended in the 63<sup>rd</sup> Meeting of the Sub-Committee for release/notification.

**Item No.2: Review of follow up action of the various meeting of Central Sub-Committee on Crop Standards, Notification and Release of Varieties for Agricultural Crops.**

The Sub-Committee approved the notification of the varieties mentioned below in Table No. 1 which were considered in the 53<sup>rd</sup>, 57<sup>th</sup>, 59<sup>th</sup>, 61<sup>st</sup>, 62<sup>nd</sup> and 63<sup>rd</sup> meetings of the Sub-Committee but kept in abeyance for want of information like submission of seed sample with NBPGR, detailed Morphological characters, All India Coordinated Trial data on disease & pest, Source and genesis of the parentages etc. The required information has now been received. Therefore, the Committee recommended the following varieties for notification.

**Table-1**

| Sl. No | Kind                 | Variety                                          |
|--------|----------------------|--------------------------------------------------|
| 1.     | Desi Cotton (Hybrid) | KR-64                                            |
| 2.     | Rice                 | GNR-2                                            |
| 3.     | Sugarcane            | CoVSI-9805                                       |
| 4.     | Sorghum (hybrid)     | Co5                                              |
| 5.     | Black Gram           | DU-1                                             |
| 6.     | Rice (hybrid)        | RH-1531(Frontline Gold) (IET 21404)              |
| 7.     | Sorghum              | CSH-27 (SPH-1644)                                |
| 8.     | Jute                 | JROM-1 (PRADIP)                                  |
| 9.     | Jute                 | JRCM-2 (PARTHO)                                  |
| 10.    | Mesta                | Shakti (JBM-81)                                  |
| 11.    | Sunhemp              | Ankur (SUIN-037)                                 |
| 12.    | Sorghum (hybrid)     | SPH-1629 (MLSH 296 Gold/DJ 2002)                 |
| 13.    | Groundnut            | Gujarat Junagarh Groundnut-22 (JSSP-36)          |
| 14.    | Groundnut            | Gujarat Junagarh Groundnut-17 (JSP-48)           |
| 15.    | Maize (Hybrid)       | Vivek Maize hybrid (FH 3483)                     |
| 16.    | Rice                 | NDGR201 (IET 20048)                              |
| 17.    | Chickpea             | Raj Vijay Gram 203 (RVG 203)                     |
| 18.    | Lentil               | IPL-316                                          |
| 19.    | Black gram           | TU 40                                            |
| 20.    | Rice (Hybrid)        | JKRH 3333 (IET 20759)                            |
| 21.    | Rice                 | Narendra Sugandha Dhan (NDR 6093) (IET 19768)    |
| 22.    | Rice                 | Narendra Usar Dhan 2009 (NDRK 50002) (IET 19667) |
| 23.    | Maize (hybrid)       | Hishell (MCH-42)                                 |
| 24.    | Wheat                | GDW-1255                                         |
| 25.    | Wheat                | GW-11                                            |

After in-depth discussion, following varieties have been recommended for notification subject to certain conditions as stated against each.

**Table-2**

| Sl. No | Kind           | Variety    | Remarks                                                                                    |
|--------|----------------|------------|--------------------------------------------------------------------------------------------|
| 1.     | Maize (Hybrid) | KDMH-017   | Subject to submission of EC Number of parental lines for confirming the source of parents. |
| 2.     | Soyabean       | Pant Soya- | State Seed Sub-Committee should submit the                                                 |

|  |  |                  |                                            |
|--|--|------------------|--------------------------------------------|
|  |  | 1241<br>(PS1241) | fresh proposal as it is very old proposal. |
|--|--|------------------|--------------------------------------------|

In respect of proposal for Rice c.v. Gontra Bidhan-2 (Bidhan Dhan-2) (IET 19571), it was observed that the variety has not identified by the varietal identification committee. The Committee directed the concerned breeder/project coordinator to submit the proposal to this Committee after identification in the workshop.

**Item No.3: Proposal for release/notification received for consideration in the 64<sup>th</sup> Meeting of Central Sub-Committee on Crop Standards, Notification and Release of Varieties for Agricultural Crops.**

The following proposals were received for discussion and consideration in the 64<sup>th</sup> meeting of the Sub-Committee for release/notification (Central varieties) and the decision of the committee are given as under:-

**Table – 3**

After detailed discussion, the Sub-Committee recommended the following varieties for release/notification (Central varieties) as per the details given below:

| Sl. No | Crop          | Name of the Variety                             | Sponsoring Authority                                      | Recommended States for cultivation                                                                                                    | Remarks                                                                                                   |
|--------|---------------|-------------------------------------------------|-----------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------|
| 1.     | Rice (Hybrid) | CO 4 (IET 21449) (TNRH 174)                     | Tamil Nadu Agricultural University, Coimbatore – 641 003. | Tamil Nadu, Gujarat and Maharashtra under irrigated condition during Rabi season for Southern Zone and Kharif season for Western Zone |                                                                                                           |
| 2.     | Rice          | CR Sugandh Dhan 907 (IET 21044) (CR 2616-3-3-1) | Central Rice Research Institute, Cuttack – 753 006        | Chhattisgarh, Odisha, Gujarat and Andhra Pradesh under irrigated late and shallow low land condition.                                 | Subject to submission of detailed nutritional profile of the variety in comparison with existing variety. |
| 3.     | Wheat         | Pusa Pachheti (HD 3059)                         | Indian Agricultural Research Institute, New Delhi – 110   | Punjab, Haryana, Delhi, Rajasthan (except Kota and Udaipur divisions), Western Uttar                                                  |                                                                                                           |

|    |                       |                            |                                                                    |                                                                                                                                                              |                                                                                                                                       |
|----|-----------------------|----------------------------|--------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
|    |                       |                            | 012                                                                | Pradesh (except Jhanshi division), parts of J&K (Kathua district), parts of Himachal Pradesh (Una district and Poanta Valley) and Uttarakhand (Tarai region) |                                                                                                                                       |
| 4. | Pearl Millet (Hybrid) | GHB-905 (MH-1655)          | Junagadh Agricultural University, Jamnagar – 361 006               | All Kharif rain fed pearl millet growing areas of zone A including A1 zone.                                                                                  | Subject to submission of seed samples to NBPGR for accession and indicating the name of the states covered under Zone A including A1. |
| 5. | Sorghum (Hybrid)      | CSH 28 (NSH 54) (SPH 1647) | Nuziveedu Seeds Pvt. Ltd., Ranga Reddy (Dist)                      | Maharashtra, Karnataka, Madhya Pradesh, South Gujarat and North Andhra Pradesh for rainy season cultivation.                                                 |                                                                                                                                       |
| 6. | Sorghum (Hybrid)      | CSH 31R (SPH 1666/DJ 4005) | Devgen Seeds and Crop Technology Pvt. Ltd., Secunderabad – 500 003 | Rabi sorghum growing areas of the country                                                                                                                    | Subject to submission of details of the source and genesis of parentage.                                                              |
| 7. | Sorghum               | SPV– 2033                  | Regional Agricultural Research Station, Bijapur                    | Maharashtra, Karnataka and Andhra Pradesh under deep block soil in Rabi season.                                                                              | .                                                                                                                                     |

**Table-5**

After in-depth discussion, the sub-committee has rejected the following varieties for the reason stated against each variety.

| S. No. | Crop             | Name of the variety   | Sponsoring Authority                                   | Reason                                                                                                              |
|--------|------------------|-----------------------|--------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|
| 1.     | Rice<br>(Hybrid) | DRH775<br>(IET 19741) | Metahelix Life Sciences Limited, Bangalore – 560 099   | Not tested against with proper check variety i.e. PA-6201 in the zone                                               |
| 2.     | Wheat            | UAS – 304             | University of Agricultural Sciences, Dharwad – 580 005 | The cultivar has already rejected in 56 <sup>th</sup> meeting due to poor performance on yield and other parameters |

**Item No. 4: Proposals received for discussion and consideration of varieties for notification (State varieties) in the 64<sup>th</sup> Meeting of Central Sub-Committee on Crop Standards, Notification and Release of Varieties for Agricultural crops.**

The following proposals have been received from the states for discussion and consideration in the 64<sup>th</sup> meeting of the Sub-Committee for notification (state varieties) and the decision of the committee are given as under:

**Table No. 6**

After detailed discussion, the Sub-Committee recommended the following State varieties for notification.

| Sl. No | Crop | Variety | Sponsoring Authority | Recommended States | Remarks |
|--------|------|---------|----------------------|--------------------|---------|
|--------|------|---------|----------------------|--------------------|---------|

|     |                  |                                                         |                                                             |             |                                                                                                                                                                                                 |

#### **Item No. 5 : Amendment in the Gazette Notifications**

63<sup>rd</sup> Meeting of the sub-committee recommends two proposals of Pearl Millet (Hybrid) Bio 448 (MH 1671) for release/notification for two different zones i.e. Zone 1 (Rajasthan, Gujarat, Haryana, Madhya Pradesh, Uttar Pradesh, Punjab and Delhi) and Zone 2 (Maharashtra, Karnataka, Andhra Pradesh and Tamil Nadu). However, in the notification S.O. No. 2125 (E) dated 10.09.2012 only Rajasthan, Gujarat, Haryana, Madhya Pradesh, Uttar Pradesh, Punjab and Delhi has been included for cultivation of Pearl Millet (Hybrid) Bio 448 (MH 1671). Now, the Committee recommends including Maharashtra, Karnataka, Andhra Pradesh and Tamil Nadu States for cultivation of above said Pearl Millet (Hybrid).

After considering specific proposals, general discussions were held and following decisions were taken:

- (1) Many proposals which were deferred in earlier meetings of central sub-committee for want of specific information had not been resubmitted by the concerned breeder/institutions. The concerned Project Director / Project Coordinator will take up this matter with the defaulting institutions/ breeder for resubmission of such proposals after removing various defects / deficiencies.
- (2) ADG (Seeds), ICAR shall coordinate with the Director, DRR and Director, DMR for revision of criteria and guidelines for release of new varieties. In the revised guidelines the criteria for denomination of new varieties, testing procedure at various location and testing of entries from international institutions etc. will also be covered.
- (3) In the revised guidelines, the procedure for testing for disease/pest resistance/tolerance under artificial inoculation and under natural field conditions should be included. The method for recording data under biotic and abiotic stress conditions should also be covered in the revised guidelines.

The next meeting of the Sub-Committee may be held in December, 2012 and the venue for the meeting will be decided by the Chairman of the Sub-Committee in consultation with the Member Secretary.

The meeting ended with the vote of thanks to the Chairman, members and special invitee of the committee.
